## Many Things

Are Meant

By many dealers who claim to

handle groceries. When they

advertise Good Groceries, no

mention is made of PRICE.

When price is mentioned

QUALITY IS OVERLOOKED.

Again, sometimes they dwell

on the virtues of a LARGE

STOCK. In this case no claim

is made to carrying FRESH

GOODS.

We preach the Three Main Virtues

of Groceries—

Quality

Quantity

Price

They are mentioned in their

regular order and the happy

combination is causing hosts of

pleased patrons at our store.

## OPPOSING FORCES AT WORK.

Combination upon a large scale continues to be made for the purpose of uniting interests that are in sympathy with each other. There are no conflicting forces acting together or combining as they would be a source of weakness when united. Such combinations would be against the order of things, as elements in opposition would not furnish harmony which is a paramount necessity to support the object sought through combination.

There are meetings by those representing conflicting interests where harmony is discussed earnestly for the purpose of arriving at unity of action between conflicting and contending forces. There is not anything unusual in these gatherings as they always precede a collision of opposing interests that are a subject of contention.

Those representing capital join those representing labor with the purest of motives, having in view the accomplishment of good deeds through a wise policy induced by feelings represent fine philanthropy. These people talk together and resolve to be good to each other, which is done with a singleness of purpose which honors human nature and more particularly the higher humanity there is represented in the bosoms of those who are seeking at these meetings to avert or approaching storm that will be a result of conflicting forces coming in contact one with the other.

These meetings represent the better part there is in the race, but they are forerunners, and no more, to conflict. It is approaching conflict that alarm and brings together the more human there are among the people. Their work may be a means to delay, but unless there is a remedy provided to bring conflicting interests into harmony, the causes at work to produce a conflict will continue to gather force till a collision is a result of continued opposition.

There ever has been in some manner a conflict between labor and capital which has caused many efforts to bring them together in harmony. These efforts have always been made with an object in view for the common good of mankind, but all efforts made to harmonize these opposites have been futile.

Future efforts to harmonize capital and labor in the field of contention will continue to be disappointing till one or the other has gained an ascendancy making the other bow to its will in a direction in a legalized manner.

Labor continues to combine with a view to secure its right to a just share of its earnings or of its products. It assumes when in combined form to make terms for capital, which capital in the present state of society will not submit to have labor do.

The commanding pride of capital is jealous of any dictation from labor which capital assumes is largely dependent upon it for subsistence while labor in combination is taking a position that capital is dependent upon it for all it secures, or that capital is worthless without the aid of labor.

Capital had a very decided advantage over labor while it was individualized in its efforts against capital, but there was a material change when the individuals began to unite in effort which favored the power of labor by depriving capital under the old competition system of much of its power in opposition to labor.

Capital is not slow to see the approaching storm which labor is preparing to secure ascendancy over capital, or to secure a position before the law and in society which will equal the position of capital.

The centralized world is engaged in securing power to resist the encroachments of labor upon its domination. It has learned a lesson from labor through combination which it is engaged in putting into practice after

the manner of labor as speedily as can be done consistent with its conservative methods.

It has the caution of an elephant when engaged in trying new things and to secure the necessary time to try new things its first work was to secure control of the governments of the world and their armies, while labor either in its kindness or in its ignorance has been aiding it to secure control of the governments and armies which will only have an effect to delay a final effort between the forces to the contention.

When capital is in a position to control the governments, the armies, the means of communication and the money of the world, it will be very well prepared for a war which will require all the time in the twentieth century to close.

There is much weak talk about the power of labor among its leaders which gives a superficial view of the situation respecting the present, but there is an absence of discussion regarding the future and its effect upon the condition of labor, which leads to a conclusion that the subject is treated with reference to getting sufficient to eat and wear to the exclusion of the practical questions there are included in a solution of the great problem there is involved in the contention there is coming between the opposing forces of capital and labor.

## ABOUT MINE AND MINER

## Notes Gathered From Exchanges

## About This Industry.

Advices from Tonopah are to the effect that there are at present seventy-two mining leases in operation, each of which could be sold for a considerable sum.

Two men named Johnson struck a silver hole in a mine at Lundr a few days ago and the resultant explosion, severely hurt one of the men's hands and carried away two of his fingers. The front of the man's body was slightly burned and scratched.

From a communication received from Tonopah a few days ago, we were informed that the Enterprise Mining company now operating four and one-half miles northwest of Golconda, have indications for the making of a good property. The tunnel is 220 feet in length and is showing some fine specimens of copper, which on the surface runs from 17 to 45 per cent. The company expects to tap a large body of ore in the near future. The line was discovered by J. L. Shaw in 1900.

The Wells Herald reports a great strike in the Brooklyn mine at Condit, about one and one-half miles from Salmon River, and thirty-five miles from Wells. The Brooklyn mine is a copper property and is owned by a Montana company.

There is considerable activity in mining circles around Unionville and those in a position to know say that the outlook for the summer is very bright. The Lode denies the report that the Lamar mine is to be closed down. The paper says that the rumor originated with the "knocker" element and is without a semblance of foundation.

The boiler and engine of the old Banner or Wild Rose mill has been sold by G. P. Doyle to the Messrs. Nolar and is use in running machinery at the Centum concentrator plant.

Col. Quinn has discovered a new ore body in the Harwood mine at Silver Lake and will put on a force of men soon.—Chronicle.

A ledge showing a width of four feet, carrying high in copper has recently been discovered in Bliss creek canyon, Humboldt county.

During the first half of this month shipments aggregating 235 tons were made from Wells. It is expected that shipments of 150 tons per week will be made hereafter.

A. J. Taylor, of Silver City is in San Francisco, where he will purchase a hoisting plant to place on the Lager Beer mine.

Rock milling \$3 per ton, from the Suto tunnel waste dump, is being worked at a profit.

C. S. Batterman of the Excelsior Co. of Mason Valley, passed through Wednesday on his way to Montana. He reports things running smoothly at the new mill now.

About sixty tons of copper matte have so far been shipped from the Excelsior company's smelter in Mason Valley.

## SYRUP OF FIGS

NEVER IMITATED QUALITY.

An Excellent Combination.

The pleasant method and beneficial effects of the well known remedy, Syrup of Figs, manufactured by the CALIFORNIA FIG SYRUP CO. illustrate the value of obtaining the liquid laxative principles of plants known to be medicinal laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other purgative plants, by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package.

## SAGEBRUSH OCCURRENCES

## Happenings in this State Gleaned From our Nevada Exchanges.

It is reported that the Yerington school will be graded next year and that a principal and assistant will be employed.

This week has been several heavy shipments of wool made from this point to Boston. In all about 150,000 pounds were shipped, the wool having been purchased from F. L. Orcutt from 10 or 12 sheepmen of this county and Oregon.—Silver State.

The closing exercises of the Carson Indian School will occur on Wednesday, June 26th, at 2 p.m. The public is cordially invited to attend.

On Thursday last Commissioner James Yerington was elected chairman of the State Commissioners at Buffalo. This indeed is a high honor to the state of Nevada.

The San Pedro Company now has five parties in the field—two in California, two in Nevada and one in Utah. Another outfit will start from Salt Lake City in a few days.

The school census of the Eureka district up to the present time gives 221 children of school age, a decrease of seven children from the census of last year.

The Douglas county creamery turns out a little over 1800 pounds of butter daily and the patrons number nearly 100.

Twenty-five new residences have been erected in Wadsworth during the past year and other improvements made, which will show a large increase in the town's taxable property for 1901.

Philo Knapp and John Ross have been held to appear before the Storey county grand jury to answer the charge of attempting to kill Pete Malloy the other day. Bonds were fixed at \$1000 each. Both gave bonds and were released from custody.

## DIRECTORS OF NEVADA BRANCH:

M. Kyle, President; J. M. McCormack, Vice-President; H. M. Martin, Treasurer; P. D. King, Attorney; John Sunderland Jr., J. F. Stewart, J. C. Woolard, Trustees.

REL. BLACK 24 20 SECOND Pamplin & Hoffman, Agts.

Beauty is Health.

Wanted, Lake, Ark., June 2, 1903. I thank you for the benefit I received from your advice and the Wine of Cardui. I took in my terrible condition. My life was no pleasure to me at all and I was of no use to anybody. After receiving your advice and medicine I commenced taking it and began immediately to improve. The pain left me and the menopause, which came at the correct time, continued three days. I have gained strength and my weight has increased. My husband says the medicine has made me better looking than ever before. Mrs. LIZZIE MANNELL.

Womanly health means bright eyes, rosy cheeks, clear complexion and plasticity of form. This is the youth unmeasured by years—the beauty of perfect womanhood. Beautiful women are happier and get more out of life than their sisters whose faces indicate suffering. Wine of Cardui made Mrs. Mannell "better looking" and infinitely happier because it cured her of deep-seated pain. But she is no exception.

WINE OF CARDUI

Is giving thousands of women health, beauty and freedom from the dragging pains which made their lives so miserable. Wan faces, haggard eyes and emaciated forms are the results of suffering. What suffering can compare with the tortures of irregular menstruation, leucorrhoea and falling of the womb? Beauty flows quickly before the ravages of such disease. The sharp pains of falling of the womb depress the brow tracks in the face. Menstrual irregularities rob the eye of its fire and the complexion of its transparency. Leucorrhoea drains the body of its strength, but Wine of Cardui restores the natural beauty, brightens the eye, clears the complexion, rounds out the figure and brings back the vigor of health. Every druggist in this city handles \$1.00 bottles of Wine of Cardui.

Prepared and Bottled in Chicago, Ill., by "The Ladies' Auxiliary Department," The Chamberlain Medicine Company, Chicago, Ill.

## PLEASURE RESORT.

Not Far from Reno Are Splendid Hunting, Fishing and Camping Grounds.

The majority of the people of Reno are not aware that the grandest camping, fishing hunting and pleasure grounds in the Sierra Nevada are located in the vicinity of Johnsville, in Plumas county reached by rail via Clearville which is only 60 miles from Reno via the Nevada-California-Oregon railway and that within a radius of 5 miles from Johnsville, are 12 beautiful lakes, well stocked with the choicest fishes, which never fail to bring joy to the heart of the angler, and in the adjacent woods and vales, quail and grouse are extremely numerous while most delightful camping grounds are to be found in the numerous groves of lordly pines, by purpling brooks of pure mountain water.

The pretty village of Johnsville has a most charming and well furnished hotel with a table second to none, while the regular rates are \$2 per day, special rates are made by the week or month, with considerable reductions to parties.

There is not a more delightful stage ride in California than that from Clearville to Johnsville and the round trip rate is only \$3.

The Nevada-California-Oregon Railway Company have put in effect for the season special excursion rates for parties of five or more from Reno to Clearville and return, of \$25 for the round trip available on any date and good for return passage for 30 days from date of sale.

With such attractions and inducements at our very doors, there seems but little excuse for our Reno sportsmen and anglers seeking rest and recreation in far more remote and costly places which afford even fewer attractions.

The merchants and dealers in the various settlements in Plumas and Lassen counties have become accustomed to going to the coast for their supplies but Reno wholesalers ought to be able to sell at prices equally as reasonable as Sacramento or San Francisco. Closer personal relations between Reno and the centers of trade in Sierra Plumas and Lassen counties would undoubtedly be of mutual benefit, and therefore should be cultivated in every possible way as social relations generally grow into commercial relations and Reno ought to grow on the lines for it is essentially a commercial city.

QUEEN NELLIE, THE FIRST.

Special to the Journal.

CARSON, June 25.—The vote for queen of the Carnival ended tonight. The vote has been counted and Miss Nellie Easton has been voted to have the highest number of votes, a majority of 246. Miss Shaw received the second greatest number. The result was in the nature of a surprise, as Miss Schultz seemed to have a safe lead.

UNTIL NOON.

Until noon today Sol Levy will exhibit the latest styles of ladies' tailor-made suits. Ladies will do well to call and examine them, and anyone desiring to place an order can have their measure taken and the very best of fit will be guaranteed.

THEFT ACKNOWLEDGED.

## THE RENO VAUDEVILLES

See the Real Automobile and the Funny Monologues, Palmer and Oldfield.

Friday evening, June 28th, the Reno Vaudeville's play at McKissick's Opera House. This combination is composed of Messrs. Jacobs, Hewitt and Hofmann, who do an acrobatic turn, introducing an automobile built especially for their own use—it's a hit—watch the bell.

Everybody oriented with a ring. After you get the ring Messrs. Hewitt, Lunsford, Tobin, Blair and other sweet singers will render the latest popular airs and will be accompanied by a chorus of twenty-five voices and an orchestra that needs no praise at our hands.

Little Leo Hickman, the boy soprano, will be heard in an entirely new repertoire, everyone has heard this sweet singer.

Palmer and Oldfield will introduce a musical turn of rare ability, also monologist work. They'll keep you laughing from start to finish. They're a whole show in themselves. They play twelve different musical instruments.

The Riverside Comedy Four, do a musical singing act, which is right there with comedy and at the same time they don't forget the harmony. This act is a winner.

Mr. John Mehlin, will introduce some new and novel music on the saxophone. Mr. Mehlin is a thorough musician and you will enjoy this rare treat.

There is a large chorus and there will be several of the latest ballads sung, introducing dancing etc.

The boys have worked long and hard on this entertainment and have succeeded in making it one of the best.

Seats on sale at the usual place.

The first part comprises singing in costume of the Monastery scene of the "Toy Maker."

## THE CROP BULLETIN.

Weather.—The weather of the week ending June 24th was characterized by moderately high temperature, fresh to brisk drying winds and scant precipitation. Scattered thunder showers, accompanied by hail in a few localities, occurred in northern and western districts on the 19th. There was about the normal amount of sunshine during the week.

Crops.—The warm weather of this week has made a very general improvement in the condition of all crops throughout the State, especially those which were damaged by the severe frosts of the previous week. Reports indicate that wheat is looking well all over the State, but the cold nights have been unfavorable for growth and the crop is backward. Harvesting alfalfa is in progress in most sections, with unsatisfactory results, the yield falling below average on account of the cold and backward spring.

In the extreme south portion of the grain harvest is practically over and the cutting of the second crop of alfalfa is under way. Corn is in roasting ear and the fruit crop is very promising. Water for irrigation appears to be plentiful in all sections of the State.

## LAKE TAHOE.

(For the Journal.)

Nestled amid Sierra's hills, Sierras hills or waving vines, Fed by a thousand mountain rills, Lake Tahoe like a maid reclines.

Like a diamond with emeralds set, Her gentle beauty ever shines, Round her a gorgeous circle.

Of green hills and dark waving pines, Which seem her brothers while they sleep, Watch over a lovely sister's sleep.

The bright sun lingers on his way To take a longer glance at her, Then pours a softer, golden ray.

Departs her pensive worshipper And envies his consort, the moon, Whose beams will woo her smiles full soon.

Fair Luna! In her nightly course Sails on thro' stars—a brilliant race—

Impelled by sympathetic force Doth stop to view her fair, pale face In her bright bosom—then away She hastens to seek the rod of day.

The evening stars that gem the skies Shine brightly on this world of ours, Counting each moment as it flies, They strive with all of planet's powers

To chance their orbits—so to take A glance at lovely "Moon's" lake.

—T. W. HEALY.

LIKES OLD LOOKS.

W. Herrin chief attorney of the Southern Pacific Company, his two daughters Dr. and Mrs. Stubbs and son and R. W. Parry drove about Reno Monday evening visited the University the Alsano Farm and other places of interest. Mr. Herrin said he was very much impressed with the beauty of Reno and the progress manifested everywhere. He predicted a bright future for this city.

BRICK WORK BEGUN.

The foundation for the new kindergarten building is completed and yesterday the bricklayers began work on the structure. Prof. Richard Brown is acting as superintendent of construction and is giving his services gratis.

SPORTING HOUSE OPENED.

RENO HOTEL LEASED.

The Sherman Hotel in this city has been leased to Messrs. Weisman and Gill for a term of three years. The lessees will take possession Monday.

Mr. Dougherty has conducted this hotel in an excellent manner for a number of years. His successors are experienced hotel men and will doubtless continue to keep up the standard of the house.

PROSPECT WORK.

The Reno Star mine is employing 27 men at present and will not materially increase the force until the litigation over the lateral dip is settled.

No ore is being shipped. The miners are doing development work. The ore that is being extracted is being stored in the ore house and on the dump.

GETTING GOOD ORE.

Three carloads of ore are shipped every week from the Bell mine at Wedekind. It is very high grade. The new shaft has broken into ore assaying from \$10 to \$20. Sinking will be continued until the high grade stratum is reached.

AFTER BIG GAME.

Carl Wheeler and Sutherland Hibbard started on a camping trip yesterday and judging by the looks of their freckled department, bear should roam high in the direction the nimrods got their horses were headed toward Reno.
